In Spain, Articles 36.1 and 36.2 of the Corporate Income Tax Act (the 'Ley del Impuesto sobre Sociedades', or 'LIS') govern tax incentives for film productions. The LIS applies in the Canaries, as it does across the rest of the country, but the regional Economic and Tax Regime (the 'Régimen Económico y Fiscal', or 'REF') establishes a permanent increase of 20 percentage points over the reliefs applicable elsewhere in Spain for projects shot on the islands.

TAX RELIEF COMPARISON

In addition, specific REF reliefs are available such as setting up a ZEC company and paying just 4% Corporate Income Tax; or 0% VAT in your film production costs or reducing the taxable base by up to 90% (RIC).

APPLYING THE TAX INCENTIVE

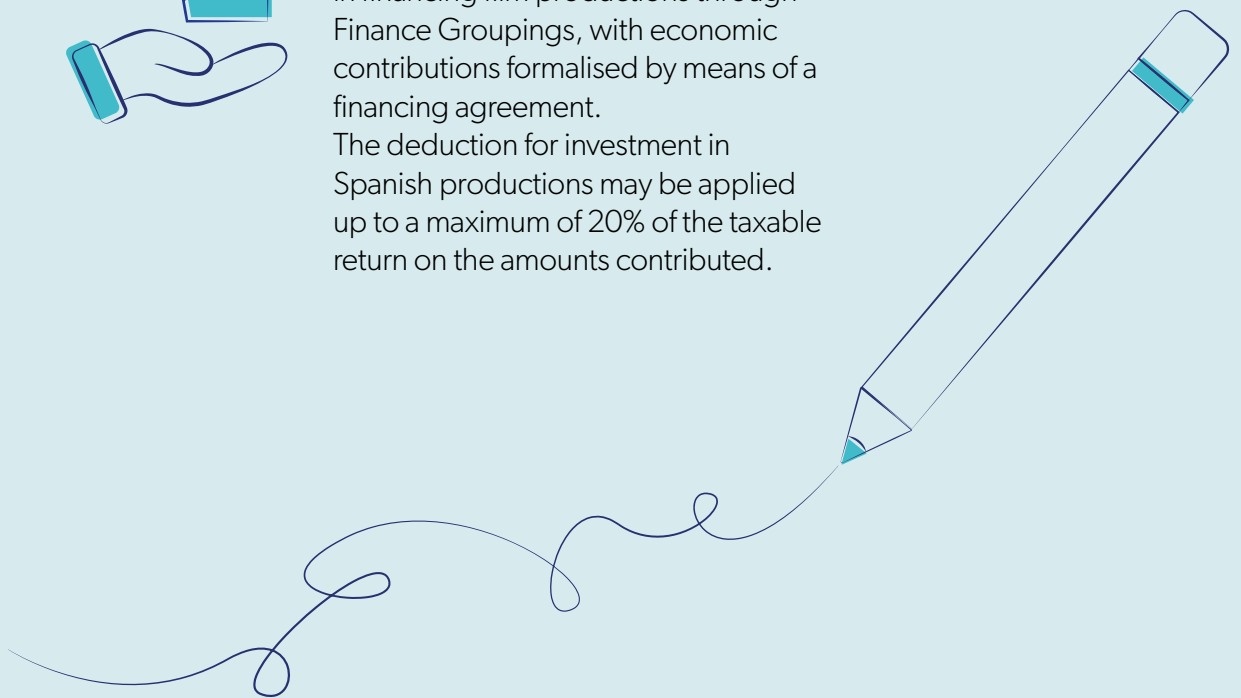

There are two options when applying this incentive:

If the producer is an Economic Interest Grouping (EIG), the tax credit derived from the investment in the film production will be transferred to its partners according to the percentage of capital paid up. The partners may thus allocate the deductions, rebates, taxable profits and losses, financial expenses and withholdings generated by the production grouping directly to their Corporate Income Tax payment.

Likewise, any taxpayer may be involved in financing film productions through Finance Groupings, with economic contributions formalised by means of a financing agreement. The deduction for investment in Spanish productions may be applied up to a maximum of 20% of the taxable return on the amounts contributed.

2 CANARIES SPECIAL ZONE (ZEC) CORPORATE INCOME TAX AT 4%

The Canaries have other tax instruments in place to promote the economic and social development of the islands irrespective of the business sector, which therefore also apply to the film industry.

CANARIES SPECIAL ZONE (ZEC) - CORPORATE INCOME TAX AT 4%

The Canaries Special Zone ('Zona Especial Canaria', or 'ZEC') is a tax incentive authorised by the European Commission and jointly supervised by the Spanish Ministry of Finance and the Regional Government of the Canary Islands. It has been successfully applied since the year 2000 and allows for a permanently reduced flat rate of 4% Corporate Income Tax, as opposed to the 25% in force in the rest of the country. The ZEC also offers other benefits, such as an exemption on the repatriation of dividends for non-resident companies and in Property Transfer Tax and Stamp Duty (ITP-AJD), among others. This incentive is compatible with the rebate for international productions or services established in Article 36.2 of the Corporate Income Tax Act.

OTHER TAX INCENTIVES ONLY APPLICABLE IN THE CANARIES

3.1.

NO IGIC (CANARY ISLANDS' VAT) - 0% IGIC

Documentaries, live action and animation series and feature films both national and international that hire the production services of a Canaries producer, may benefit from a 0% rate of Canaries General Indirect Tax (IGIC) on deliveries and imports of goods, and related services provided. To benefit from the 0% rate, the Canaries production services company must send an application to the Canaries Tax Office before production starts.

3.2.

10%-15% DEDUCTION ON ADVERTISING EXPENSES

Tenerife film producers can also benefit from a 10% to 15% deduction on advertising expenses for product launching to open and explore new markets abroad, and for participating at trade fairs and events, including those held elsewhere in Spain, provided that they are international in scope.

3.3.

CANARY ISLANDS INVESTMENT RESERVE (RIC)

This incentive allows any company with its tax residence and headquarters in the Canaries to reduce its taxable base for Corporate Income Tax by up to 90% of non-distributed profits, in exchange for assigning this amount to a reinvestment reserve. Film producers can therefore attract RIC of other companies to be invested in productions on the islands that get the Canarian Audiovisual Work Certificate.
